II.1.4) Short description

Leicester City Council (LCC) is seeking to procure an integrated Highways Asset Management System (HAMS), to support its teams in the management and maintenance of its primary highways assets. The solution will also have the potential to be expanded to support teams managing non-highway assets.

LCC recognise that the permitting of street works (LCC is a permitting authority) is a requirement that is ideally part of the HAMS solution, but that the DfT Street Manager system should ultimately make this need redundant. For that reason we are procuring the system in two lots:

- Lot 1 – Highway Asset Management Solution
- Lot 2 – Street Works Solution
