Competitive flexible procedure description

The Authority has adopted the Competitive Flexible Procedure under the PA23 to include a dialogue phase to identify and define the solutions which are best suited to meeting the needs of the Authority as set out in the procurement documents.

The Competitive Flexible Procedure consists of two stages;

- Stage one: Procurement Specification Questionnaire (PSQ) - Conditions of Participation
- Stage two: Invitation to Submit Final Tender (ISFT) - to include dialogue.

The Authority does not intend to use the PSQ to reduce the number of Qualified Bidders down to the next stage of the Competitive Flexible process.

The Authority does not intend to reduce the number of Qualified Bidders down during the dialogue stages by applying the award criteria.

An indicative timetable for the procurement is detailed in the ISFT document together with the proposed approach to the dialogue process.
