#### **II.1.4) Short description**

Forestry & Land Scotland (FLS) undertakes deer and other wildlife management on Scotland's National Forest and Land (SNFL) to protect tree crop and designated sites from the adverse impacts of grazing/browsing herbivores. This protection increases the volume and quality of timber brought to market, enables woodland creation and protects and enhances biodiversity through habitat protection.

The aim of this contract is to procure deer and other wildlife management services. These services will assist FLS in reducing and maintaining deer and other wildlife at sustainable densities across the SNFL through culling in a humane, safe and cost effective manner. These services are to be delivered in conjunction with the culling duties of FLS Wildlife Staff.

Carcasses of deer and some other animals are sold into the human food chain and therefore the lardering of carcasses must be undertaken in accordance with Scottish Quality Wild Venison Assurance Scheme (SQWVAS) standards.

The scope of this contract is primarily for deer culling. The culling of feral pig, feral goat and feral sheep is required on an opportunistic basis only. FLS reserves the right to deliver or procure a targeted feral pig, feral goat and/or feral sheep cull.

Culling must be by centre fire rifle. Shotguns are not permitted.

The contract term is 12 months commencing 1st July 2023.

Regulation 72(1): FLS may modify the Contract, irrespective of the monetary value of those modifications, within the scope permitted under Regulation 72(1)(a) of The Public Contracts (Scotland) Regulations 2015 should Operational reasons require it. Actual requirements can vary due to changes in:

Deer ingress;

Significant weather patterns impacting deer density;

Forest block acquisition or disposal within the lot boundary;

Taking responsibility for an FLS Staff block;

Any disease or tree health issue;

A change in Scottish Government or FLS strategies;

Scottish Governments response to the Deer Working Group and any associated changes

to published best practice and legislation;

Any collaborative culling agreement;

Receipt of additional funding;

Standards associated with the preparation of carcasses and sale of bi- products to meet FLS business need;

NatureScot legislative, regulatory or collaborative requirements;

Scottish Governments response to COVID-19.
