I.3) Communication

Access to the procurement documents is restricted. Further information can be obtained at

www.channelislandtenders.com

Additional information can be obtained from the above-mentioned address

Applications or, where applicable, tenders must be submitted electronically via

www.channelislandtenders.com

I.4) Type of the contracting authority

Regional or local authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Provision of Sea Ferry Services (Passenger and Freight) to and from the Channel Islands from the UK and France

Reference number

DN711460

II.1.2) Main CPV code

- 60610000 - Ferry transport services

II.1.3) Type of contract

Services

II.1.4) Short description

Current ferry services connect the Channel Islands with each other, the United Kingdom and France through a combination of conventional and high-speed ferries carrying freight, vehicles and passengers.

As islands, for Guernsey and Jersey the provision of ferry services is critical for freight and passenger access. Ferry services therefore touch on every sector of the island's economy and wider life. Supply chain resilience is a key priority with for example 95% of Jersey's goods delivered by sea, which makes this project of critical importance and the routes are considered part of the island's critical national infrastructure ("CNI").

Key Strategic Objectives

- (a) Secures strategic investment in the fleet and services commensurate with the resilience requirements on lifeline routes and changing passenger and environmental needs.
- (b) Provides capacity to deliver growth in passenger volumes and to accommodate projected growth in freight volumes.
- (c) Enhances service continuity, resilience and reliability of the ferry services.
- (d) Increases the quality and value for money of passenger services with focus placed

upon the total passenger experience.

(e) Prioritises environmental sustainability, with future fleet arrangements supporting Jersey and Guernsey's carbon-neutral objectives and complies with MARPOL obligations.

(f) Improves efficiency and financial sustainability of the operations.

(g) Provides optimal Social Value.

II.1.6) Information about lots

This concession is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKZ - Extra-Regio NUTS 1

II.2.4) Description of the procurement

Current ferry services connect the Channel Islands with each other, the United Kingdom and France through a combination of conventional and high-speed ferries carrying freight, vehicles and passengers.

As islands, for Guernsey and Jersey the provision of ferry services is critical for freight and passenger access. Ferry services therefore touch on every sector of the island's economy and wider life. Supply chain resilience is a key priority with for example 95% of Jersey's goods delivered by sea, which makes this project of critical importance and the routes are considered part of the island's critical national infrastructure ("CNI").

Key Strategic Objectives

(a) Secures strategic investment in the fleet and services commensurate with the resilience requirements on lifeline routes and changing passenger and environmental needs.

(b) Provides capacity to deliver growth in passenger volumes and to accommodate projected growth in freight volumes.

(c) Enhances service continuity, resilience and reliability of the ferry services.
