This global framework will be the British Council's primary route for the procurement of monitoring and evaluation consultancy work. It will include a lot focused on long term strategic evaluations which examine the Council's impact across multiple programmes. And it will include a lot focused on evidence and evaluation advisory support in thematic areas of expertise. These thematic areas are planned to include the following: regional expertise (Americas, EU, Wider Europe, Asia Pacific, Sub-Saharan Africa, MENA, and UK); arts/culture/heritage; higher education; TVET; English teaching, exams and assessment; bilingual and multi-lingual education; education in emergency contexts; Equality, Diversity and Inclusion (EDI); digital programming and delivery; infographics; monitoring, data systems, and data analytics.
