II.2) Description

II.2.3) Place of performance

NUTS codes

- UKH14 - Suffolk

Main site or place of performance

Ipswich and East Suffolk and West Suffolk localities.

II.2.4) Description of the procurement

The Health Care Services (Provider Selection Regime) Regulations 2023, Paragraph 10 - The Most Suitable Provider Process has been used to procure this service.

This is a notice to inform the market of the intention to award a contract for NHS Talking Therapy Services for Ipswich and East Suffolk and West Suffolk localities to Norfolk and Suffolk NHS Foundation Trust. This is a new contract for an existing service to be delivered by an existing provider of this service.

The Talking Therapies service will provide community orientated, evidence-based psychological therapies to the Suffolk population from the age of 16. The service is aligned to the national NHS TT manual and supports the Suffolk Mental Health ambitions. The service is expected to take a 'needs led' approach, such that people with needs that can be met by the service should be enabled to engage in a way that suits them and offered a timely initial appointment and any subsequent therapeutic appointments.

The service will take an approach that empowers individuals to take charge of their

treatment and interventions. Aiming to equip people with the skills and tools to achieve 'recovery', continue to apply this recovery to their life, through community assets, and embed this to maintain recovery in the long-term.

The service will continue to be an integral member of the system to ensure it remains flexible to the evolving needs of the integrated care organisation and continue to offer an appropriate service. Work with key policy associated with system partners will be required, such as the Fuller Report for primary care, to respond to operating changes in the system such as development of Integrated Neighbourhood Teams and the delivery of primary care at scale.

The contract will be awarded with an initial contract term of 5 years (60 months) and a potential extension period of up to 5 years (60 months), maximum term of 120 months (the "Proposed Contract") commencing on 1st September 2024. The total aggregated value of contract will be £143,000,000 which is an annual value of £14.3 million (the "Proposed Contract"). The contract value will be subject to annual inflation/deflation at national NHS rates as prescribed in NHS Payment Scheme guidance.

II.2.5) Award criteria

Quality criterion - Name: most suitable provider process with regard to the key criteria /
Weighting: 100

Price - Weighting: 0

II.2.11) Information about options

Options: Yes

Description of options

The contract will be awarded with an initial contract term of 5 years (60 months) and a potential extension period of up to 5 years (60 months), maximum term of 120 months (the "Proposed Contract") commencing on 1st September 2024.

II.2.14) Additional information

This is a Provider Selection Regime (PSR) intended approach notice. The awarding of this contract is subject to the Health Care Services (Provider Selection Regime) Regulations 2023. For the avoidance of doubt, the provisions of the Public Contracts Regulations 2015 do not apply to this award.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

This is a Provider Selection Regime (PSR) intention to award notice. The awarding of this contract is subject to the Health Care Services (Provider Selection Regime) Regulations 2023. For the avoidance of doubt, the provisions of the Public Contracts Regulations 2015 do not apply to this award. The publication of this notice marks the start of the standstill period. Representations by providers must be made to decision makers by 12th June 2024. This contract has not yet formally been awarded; this notice serves as an intention to award under the PSR.

No

V.2.4) Information on value of contract/lot (excluding VAT)

Total value of the contract/lot: £143,000,000

Section VI. Complementary information

VI.3) Additional information

This is a Provider Selection Regime (PSR) intention to award notice. The awarding of this contract is subject to the Health Care Services (Provider Selection Regime) Regulations 2023. For the avoidance of doubt, the provisions of the Public Contracts Regulations 2015 do not apply to this award. The publication of this notice marks the start of the standstill period. Representations by providers must be made to the relevant authority by 12th June 2024. This contract has not yet formally been awarded; this notice serves as an intention to award under the PSR.

An F01: Prior information notice was published 14 February 2024, 4:43pm - Notice reference: 2024/S 000-004999

Award decision-makers - NHS Suffolk and North East Essex Integrated Care Board - No conflicts of interest were declared.

As described in the Provider Selection Regime statutory guidance the Most Suitable Provider process is undertaken when the ICB believes it is able to identify the most suitable provider without undertaking a competitive exercise.

The process is designed to allow the ICB to make an assessment on which provider is most suitable to deliver the proposed contracting arrangements based on a consideration of the key criteria, the basic selection criteria and taking into account all relevant information available to it at the time, which included knowledge of the existing provision, benchmarking data, risks of change and the costs and benefits of existing and potential

arrangements.

The additional information review focused upon understanding how interested providers would manage the main risks which could occur if a change in provider happened and the key areas of development currently in place with Norfolk and Suffolk NHS Foundation Trust.

The numerical assessment of whether a provider can deliver a comparable service is only one part of the evaluation process and the ICB reviewed this in conjunction with benchmarking data, market intelligence, the wider system impacts and the impact upon existing and future service users and staff (including those working for subcontracted partner organisations).

The Suffolk Talking Therapies Oversight Group believed that the service currently delivered and planned by Norfolk and Suffolk NHS Foundation Trust was at least comparable to other offers within the market and that other offers would not generate additional benefit, therefore negating the risks which are likely, in the opinion of the project group, to be

experienced by the Ipswich and east Suffolk and west Suffolk populations were a change of provider to occur. It was felt by the project group that other offers available within the wider market would not offer enough potential benefits to outweigh the potential risks and costs associated with moving the service away from Norfolk and Suffolk NHS Foundation Trust.

The ICB retains the belief that Norfolk and Suffolk NHS Foundation Trust is the most suitable provider for this service within the Ipswich and east Suffolk and west Suffolk localities.
