Other activity

Real Time Passenger Information System Display Board/Points Equipment and Services; and

wider sustainable transport services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Real Time Passenger Information System Display Board/Points Equipment and Services

Reference number

SAM001

II.1.2) Main CPV code

- 48813200 - Real-time passenger information system
 - EA21 - For/Adapted for visually impaired person
 - EA23 - For passenger

II.1.3) Type of contract

Supplies

II.1.4) Short description

This Framework is seeking the provision of Real Time Passenger Information Systems (RTPI) Display Board/Points Equipment and Services.

RTPI Display Systems are important in enabling a customer to understand visually through a display screen, the arrival time of bus or other transport services and associated messaging to keep the customer updated and able to make informed decisions about their journey.

The RTPI Display Boards/Points capability in terms of connectivity, accuracy, speed and performance are central to how a scheme is perceived and accepted.

This Framework is seeking to host a number of RTPI Display

Board/Points Suppliers, who are committed to partnership working and the application of RTIG requirements and principles.

The Framework will be available for all public sector bodies in the UK, including Local Authorities, Highway Authorities, Combined Authorities, and Regional Transport Authorities in England, Wales, Scotland, and Northern Ireland as well as National Transport Bodies such as Transport for Wales, Transport Scotland, Translink and the Department for Transport.

It will also be available for use by any bus/rail/tram operator of the UK. More detail of who the Framework is for is outlined in Section VI.3.

II.1.5) Estimated total value

Value excluding VAT: £3,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 30231300 - Display screens
- 30231310 - Flat panel displays

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

The Framework will be available for use throughout all places of the UK, as it can be used by all public sector bodies in the UK, including Local Authorities, Highway Authorities, Combined Authorities, and Regional Transport Authorities in England, Wales, Scotland, and Northern Ireland as well as National Transport Bodies such as Transport for Wales, Transport Scotland, Translink and the Department for Transport. Additional Information is provided in Section VI.3.

II.2.4) Description of the procurement

This Framework is seeking the provision of Real Time Passenger Information Systems (RTPI) Display Board/Points Equipment and Services.

RTPI Display Systems are important in enabling a customer to understand visually through a display screen, the arrival time of bus or other transport services and associated messaging to keep the customer updated and able to make informed decisions about their journey.

The RTPI Display Boards/Points capability in terms of connectivity, accuracy, speed and performance is central to how a scheme is perceived and accepted. There is a recognition that access to Real Time Information (RTI) about journeys is an important pre-requisite for building passengers' confidence in the use of public transport.

To date, individual Local Authorities (LAs) in the UK have procured RTI services on an ad hoc basis, using local back offices to process the data. Each LA wanting to implement RTI has had to run a separate procurement for the roadside RTI equipment for their region.

Following consultation between LAs, Welsh and Scottish Governments, the DfT and bus operators, agreements are being reached to deliver improved bus data services. The building blocks needed to deliver the improved bus data services have been specified separately, with this procurement focussing on the Display Equipment.

This procurement specifies the requirements for the provision, installation and maintenance of new displays and the upgrading and maintenance of existing displays.

This procurement aims to deliver a multi supplier framework to provide:

- Upgrades to existing displays (where feasible/economical)
- Conversions from legacy communication methods to digital connections
- Interfaces with Bus Data Display Content Management Systems (BDCMS)
- Provision of new Basic Text based displays
- For displaying real time bus arrivals and departure information and messages
- For use at bus shelters and other defined locations
- Provision of new Graphical displays
- In addition to real time information, will also provide messages and static and dynamic content (e.g. weather, news, advertising)
- For use at transport hubs and other locations with high footfall
- Provision of new Low Power Displays

- E.g. elnk with Solar panel
- for use at more rural locations or locations with limited power availability

With the key requirements for this framework including:

- Upgrade and maintenance of existing display assets.
- Provision of a catalogue of new display types.
- The following requirements applicable to both upgraded and new displays:
 - o Depending on the type of display, displays with the ability to present the following information:
 - Real time bus services;
 - Schedule time services;
 - Dynamic advertising;
 - Static advertising; and,
 - Scrolling messages.
 - o The ability to deliver audio announcements through accessibility platforms such as REACT.
 - o The ability to display information in multiple languages.
 - o Displays to interface with third party supplied CMS (BDCMS).

The Supplier shall work with the BDCMS Provider(s) to add upgraded/ new displays onto the BDCMS.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £3,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

48

This contract is subject to renewal

Yes

Description of renewals

Because of the specialist nature of the technology and interface requirements, the Framework Agreement may be renewed for up to 2 additional 12 month periods - making a maximum Framework length of 70 months.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

An agreement term may be extended from a standard 48 month term, by up to 2 x 12 month periods, making the maximum term available 72 months.

II.2.14) Additional information

A copy of the ITT with all bidding information can be obtained by request, by emailing: procurement@nationalmobilitiesprocurementhub.co.uk

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

We would expect all potential bidders to either be a member of, or to be aware of the Real Time Information Group (RTiG).

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

III.2) Conditions related to the contract

III.2.3) Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with several operators

Envisaged maximum number of participants to the framework agreement: 10

In the case of framework agreements, provide justification for any duration exceeding 4 years:

The specialist nature of the Equipment and Services being sought.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2022/S 000-016195](#)

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

25 July 2022

Local time

5:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.6) Minimum time frame during which the tenderer must maintain the tender

Duration in months: 12 (from the date stated for receipt of tender)

IV.2.7) Conditions for opening of tenders

Date

25 July 2022

Local time

5:01pm

Place

Tenders will be opened after 17:00pm on July 25th 2022.

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.3) Additional information

The National Mobilities Procurement Hub (NMPH) is a national resource for all UK based Public Sector Bodies, with a Transport responsibility or interest; as well as for all bus and rail operators in the UK.

For the avoidance of doubt, the Framework has been developed for the following public sector organisations as a minimum:

Scottish Local Authorities

Aberdeen City Council

Aberdeenshire Council
