II.2.4) Description of the procurement

The aim of this DPS is to provide a compliant route to market for innovative solutions for the management, minimisation and/or disposal of waste and associated services. These Goods and Services pertain to the management, minimisation and/or disposal of waste and associated services, and will work to:

- Reduce waste produced
- Reduce waste to landfill
- Increase recycling, including materials that are hard to recycle and traditionally go to landfill or incineration
- Innovative methods of processing waste
- Re-streaming waste
- Diverting waste from more polluting/more expensive waste streams to more economical/environmentally friendly routes
- Reducing the environmental impact of waste produced

The intention is to handle waste in an innovative way, to increase recycling, reduce waste to landfill, re-direct to alternative routes, create reusable materials and/or otherwise improve the sustainability and reduce the environmental impact of Contracting Authorities.

Contracting authorities may request goods and services that are not listed above but fall within the reasonable scope of innovative waste solutions. Providers may expand their service delivery to meet the contracting authorities business needs as they develop their strategies.

The scope includes provision for providers to offer financing, lease or capital purchase options on request to support the delivery of these services.
