#### **II.2.4) Description of the procurement**

HAL requires the provision of Mechanical, Electrical and Plumbing (MEP) Services to deliver Planned Preventative Maintenance (PPM), unplanned Reactive Maintenance and Minor and Project Works to operational buildings and associated infrastructure. Services shall be completed to a high standard of workmanship in order to provide passengers, visitors and staff with a safe, secure environment and to prolong the useful life of HAL's property assets.

The Services covered under the scope include:

- Maintenance, inspection, servicing and repair of all mechanical, electrical and plumbing (MEP) assets in accordance to a planned maintenance schedule;
- Day-to-day reactive maintenance of the building services systems which may involve all electrical, mechanical and plumbing service trades including, LV electrical distribution systems and switchgear, HVAC systems, domestic water supplies, fire alarm and detection systems, security and access control systems, small power and general and emergency lighting.
- Provision of routine reporting and asset lifecycle information to inform HAL's Asset Replacement Plan.
- Providing a 24-hour 365-day responsive call out repair service; and
- Minor and Project works as instructed by HAL up to a value of GBP250k.

Specialist services such as maintenance to Aeronautical Ground Lighting (AGL), high voltage distribution networks, standby generators, uninterruptable power supplies and environmental monitoring systems are excluded from this scope and will be covered by other contracts.

See attached PIN Document for more information on the background to requirement, scope, programme and next steps.
