Provision of a Storage, Maintenance and Deployment Framework for the National Barrier Asset (NBA)

Reference number

TBC

II.1.2) Main CPV code

- 45233280 - Erection of road-barriers

II.1.3) Type of contract

Works

II.1.4) Short description

The National Barrier Asset consists of a collection of Counter Terrorism Policing (CTP) owned vehicle security barriers & protective security fencing collectively termed the "National Barrier Asset" (NBA). The NBA is deployed to block roads, footways & other locations to prevent/mitigate Vehicle borne threats from a Vehicle as a Weapon (VAW) Attack or as a Vehicle Borne Improvised Explosive Device (VBIED) against infrastructure, persons & publicly accessible locations.

Since its development, the national demand for NBA protection against terrorist attacks has increased to cover a diverse range of temporary events which can include local, national & globally focused Government Events, Police Operations, Sporting & music events & other entertainment events. The NBA is tested & approved to UK & International specifications.

The purpose of the NBA Framework is for one Contractor to provide storage, maintenance & deployment services on behalf of the Authority for a maximum of 4 years. The Contractor will also have the opportunity to supplement the NBA with their own stock should the need arise during the life of the Framework. Eligible Users of this Framework are Police Authorities, Public Sector Bodies, International Partners & selected Private Sector Organisations. The existing Framework Agreement will expire on 31 August 2023*.

The ceiling value for this framework will be £35M over the Framework term, with financial approval up to £30M & the remaining £5M ring-fenced as contingency should the

proposed Protect Duty legislation increase demand for the use of the NBA. As this is a Framework, these figures are non-committal & represent the maximum value of activities that can be carried out under the agreement subject to demand.

Following this PIN, there will be a virtual supplier day via MS Teams on 29th June 2023**. Invitations to this event will be sent out to those who respond to this PIN subject to the Authority's discretion. Attendees must be UK based. The purpose of this supplier day is to brief the market to explain the upcoming requirement & procurement process. Non-participation at the supplier day will not prevent a supplier's participation in the procurement process. All information shared at the supplier day will be published as part of the procurement.

This procurement will follow a two stage tender process:

- 1st stage will be based on the ability to meet the requirements in the form of a compliant bid
- 2nd stage will be physical testing

The top three scoring bidders will progress to the physical testing stage. The date of the first stage of this procurement is yet to be confirmed*.

A contract notice will be published when we intend to start the procurement process in the summer of 2023.

*Dates are subject to change. Expected to change this month following governance approval to extend to 31st December 2023.

**Date of supplier engagement session subject to change.

II.1.5) Estimated total value

Value excluding VAT: £35,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 34928000 - Road furniture
 - FB12 - For terrorist prevention

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Tender activity to ascertain the contractor for the next iteration of the NBA framework who will handle the storage, maintenance and deployment of police owned barrier asset. Supplier will also be given the opportunity to supplement the NBA stock with their own stock should the need arise.

Two stage procurement. First stage based on submission of bids. Top three scoring bids will progress to the second stage - physical testing. Supporting contract notice listed on Contracts Finder, titled National Barrier Asset Framework on 13/06/2023.

Competition to be held via the Authority's contract lifecycle management system, Coupa.

II.3) Estimated date of publication of contract notice

19 July 2023

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No
