II.2.4) Description of the procurement

The Digital Eyecare Programme is a strategic programme to transform the way in which eyecare is managed within primary and secondary care settings, including the provision of shared care across health care settings and Health Board boundaries.

The ability for Optometrists to provide enhanced eyecare services in community settings is a key component to reduce the reliance on traditional Ophthalmology services provided in hospital settings.

An Electronic Referral System (ERS) and Electronic Patient Record (EPR) will enable NHS Wales to make the best use of clinical skills and services and enable patients to receive specialist care more quickly and closer to home.

The scope of this PIN is for a cloud hosted digital referral solution to enable eye care referrals between Optometrists within primary care settings and for Optometry referrals to Hospital Eyecare Services (HES).
