New Year's Eve is a big night for London. The city has been highly visible at the forefront of global celebrations for much of the last two decades but as the years go by more and more innovative, exciting and creative celebrations have emerged in other world cities.

We are setting up a single-supplier framework for a highly creative production agency to deliver London's New Year's Eve show and operations from 2022 to 2025 – up to four iterations of the show. The aim is to stage an international profiling moment for London which is safe and well-managed.

This framework will allow us to be flexible in responding to the specific needs and requirements of delivering a world class show for London on New Year's Eve, in an environment that can often be uncertain or changing.
