II.1.4) Short description

Notting Hill Genesis (NHG) is looking to create a new development consultants framework to support the delivery of new homes across London. Our current framework is due to expire in 2022 and will be replaced following a public procurement process. We intend to start the procurement in late August 2021, with the new framework commencing in June 2022.

Multiple lots covering a variety of services may be procured. Interested suppliers are invited to register their interest and complete a short survey:

<https://forms.office.com/r/sFNH3kxHyk.by> 23/08/2021. We are planning to hold a virtual 'Meet the Buyer' event in the week commencing 2 August 2021, further details of this will be provided to suppliers that have registered their interest through the questionnaire. This Prior Information Notice constitutes a market engagement opportunity. For the avoidance of doubt, if you do not register your interest this will not preclude you from bidding once the Selection Questionnaire stage begins.

II.1.5) Estimated total value

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section VI. Complementary information

VI.3) Additional information

Notting Hill Genesis (NHG) is looking to create a new development consultants framework to support the delivery of new homes across London. Our consultant supply chain will support us to deliver a variety of vibrant mixed-tenure and mixed-use schemes across our large development pipeline, which is made up of affordable and private homes for rent or sale, as well as commercial properties and a focus on creating thriving communities. We plan to deliver 7000 new homes over the next five years, in the Greater London area. Our developments range from 50-unit urban infill sites to estate regeneration projects creating thousands of new homes. We deliver them through various development models, whether purchasing sites to develop ourselves, working with the public sector and other developers in partnerships or joint ventures, or acquiring section 106 units from private developers.

Our Frameworks are highly regarded and are open to other registered housing providers operating within Greater London to procure through, with 23 Housing Associations and Local Authorities registered to access our current framework.

For more information about the consultants framework, including descriptions of each lot, see this Briefing Note: <https://www.nhq.org.uk/media/20620/consultant-framework-briefing-note.pdf>

ABOUT US: Notting Hill Genesis is one of the largest housing associations in the country, with more than 66,000 homes across London and the south-east. We provide homes across a range of tenures and are committed to delivering housing that is affordable for all. We build and maintain quality homes, creating diverse and thriving communities. This is our primary purpose and everything else we do supports that. For more information, visit www.nhq.org.uk. For information about our new developments, visit www.nhq.org.uk/building-homes.

PROCUREMENT PROCESS: NHG may elect (at its discretion) to proceed with the procurement of the proposed framework. At such time as the procurement proceeds, a contract notice will be issued in the Find a Tender Service which suppliers will be required to respond to if they wish to bid for the opportunity. We intend to follow the Restricted Procedure, which is a two-stage process. The Selection Questionnaire (SQ) stage is likely to start in late August 2021, with around 6 weeks allowed for bidders to respond. The Invitation To Tender (ITT) stage is likely to start in January 2022, with around 5 weeks allowed for bidders to respond. The procurement timetable will be confirmed to bidders once the SQ stage begins.

FRAMEWORK VALUE: The estimated value of the Framework Agreement given in this Notice is based on NHG's current anticipated requirements. NHG cannot give any guarantees that

works totalling this value will in fact be called off from this framework. Equally, the total value may increase, either if NHG's own requirements increase unexpectedly or if the framework is used by other contracting authorities as noted above.

NOTE: All information in this PIN (including but not limited to lot structure, values, services) is not a firm commitment and may be subject to change following market engagement.
