NEPO are using a 2-stage competitive procedure with negotiation for the procurement of this Framework Agreement. The selection questionnaire document also contains an ITT overview that sets out the high-level requirements of the Framework Agreement. This document will allow suppliers to determine if they are interested in this opportunity and consider whether they have the required capability and capacity to deliver the Framework Agreement.

The Framework Agreement will be a single supplier and single lot solution - awarded to a single Delivery Partner. Those suppliers shortlisted from selection questionnaire and invited to tender will be evaluated in accordance with the award criteria contained within the Invitation to Tender documents. NEPO may also wish to enter into negotiations with tenderers in line with the requirements of the competition with negotiation procedure. NEPO also reserve the right not to enter into negotiations and award the Framework Agreement on the basis of initial tender.

The most economically advantageous Tenderer, will be awarded onto the Framework Agreement. NEPO does not give any guarantee and/or warrant the actual value of the services (if any) which will be placed with the successful supplier by any Contracting Authority using the Framework Agreement pursuant to this process and accepts no liability thereof. In accordance with the Framework Agreement, each Contracting Authority will enter into a call-off contract. The call-off contract is to be entered into by both the Contracting Authority and successful supplier and will be based on the terms and conditions of the Framework Agreement.

The opportunity can be accessed via the NEPO eTender system. Suppliers wishing to be considered for this Framework Agreement must register their expression of interest and submit the selection questionnaire and tender response through the Open eTendering System. If not already registered, suppliers should register on the NEPO eTendering System at <https://www.open-uk.org/> (<https://www.open-uk.org/>)
