Urolift Consumables

Reference number

DN557488

##### **II.1.2) Main CPV code**

- 33125000 - Urology, exploration devices

##### **II.1.3) Type of contract**

Supplies

##### **II.1.4) Short description**

Benign prostatic hyperplasia affects over 500 million men worldwide. While men can select from a variety of treatment options—from medication to major surgery—there has been a gap in the treatment continuum for a less invasive option.

Prostatic Urethral Lift using the UroLift® System was designed to meet this need. With its unique design and mechanism of action, the UroLift System is a straightforward treatment that provides immediate, visible results.

The procedure can be done in an outpatient or inpatient setting and under general or local anaesthesia. Patients typically can return home the same day without a catheter, and experience rapid symptom relief and recovery with low complication rates. The UroLift System treatment revitalizes the quality of life for patients and improves the BPH therapy experience for physicians.

#### **II.1.6) Information about lots**

This contract is divided into lots: No

#### **II.1.7) Total value of the procurement (excluding VAT)**

Lowest offer: £150,000 / Highest offer: £350,000 taken into consideration

## Section IV. Procedure

### IV.1) Description

#### IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

Award of a contract without prior publication of a call for competition in the Official Journal of the European

Union in the cases listed below

- The procurement falls outside the scope of application of the directive

Explanation:

The Trust is seeking an Innovative Prostatic Stapling Implant system in place of the invasive transurethral

resection of prostate (TURP)

Patients benefit by this system in the following ways:

- This is a Day case procedure with less blood loss and reduced possibility of transfusion.
- Better patient experience as this procedure is better tolerated by younger patients.
- Day case means patient can go home quickly

And the Trust benefits in the following ways:

- The release of release bed capacity on the Surgical Short Stay Ward.
- Reduction in cost associated with day case
- Increase in Trust reputation for undertaking Innovative procedures

And the Urolift System is the only product in the market which delivers the combined

benefit to the Patients and  
the Trust.

#### **IV.1.8) Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: No

#### **IV.2) Administrative information**

##### **IV.2.1) Previous publication concerning this procedure**

Notice number: [2018/S 132-300590](#)

---
