### **II.2.4) Description of the procurement**

Norfolk County Council is looking to replace its asset management database system with centralised fault management facilities. The Solution is intended to support the management of Traffic Signal equipment and other highway-associated systems. The Solution is intended to act as a UTM-compliant hub interfacing with the existing UTC traffic signal control system and the Traffic Signal Maintenance Supplier's Fault Management System. It is required to support daily asset management, replacing the current 'Osprey' UTM compliant XML CDMF system. The Solution is expected to be based on the existing XML database,

ensuring a seamless handover. The Solution must be provided as a hosted solution, with the capability to interface with future hosted versions of UTC and other UTMC compliant systems. The Solution is essential to support Norfolk County Council's daily management and maintenance of traffic signal assets and their associated system infrastructure. These assets and systems must comply with the statutory obligation of the Highway Network Management duty outlined in The Traffic Management Act 2004.

#### VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

The Public Contracts Regulations 2015 (as amended) provide for aggrieved parties who have been harmed or are at risk of harm by a breach of the rules to take action in the High Court (England, Wales and Northern Ireland). Proceedings must be brought within 30 days from the date of knowledge (the date on which the economic operator first knew or ought to have known that grounds for starting the proceedings had arisen) unless the Court considers that there is good reason for extending the period within which proceedings may be brought, in which case the Court may extend that period up to a maximum of 3 months from the date of knowledge.
