Section II: Object

II.1) Scope of the procurement

II.1.1) Title

London Construction Programme Major Works Education Framework MW24-E

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

LCP on behalf of Haringey Council is procuring a new major works framework specialising in education buildings, to replace the existing major works framework. Scope of works will include new education buildings, MMC, planned maintenance, retrofit, fire safety works, refurbishments, remediations and adaptations.

It will be established for a period of 5 years and will be available to any public sector body in London and the Home Counties. It is anticipated the framework will commence in November 2024.

The London Construction Programme (LCP) was established in 2012 by Haringey Council, supported by other London Local Authorities, to develop a pan-London strategy to improve construction procurement. The LCP currently has a membership of 60 London and Home County Public Sector organisations. The LCP is a 'virtual organisation' currently hosted and operated by Haringey Council's Strategic Procurement Team, led by the Chief Procurement Officer within the Council.

A new Framework is required to replace the current LCP Framework (MW19) which is due to expire in October 2024. The new Framework is to provide housing construction and housing construction related activities for new build developments, housing related planned maintenance, fire safety, retrofit and refurbishments according to the Lot Categories.

The services will be procured in 9 lots:

Lot 1.1 New Build £1m-£5m contract value

Lot 1.2 New Build £5m+ contract value

Lot 1.3 Single Stage tendering, £1m+ contract value

Lot 1.4 Modern Methods of Construction, (no minimum contract value)

Lot 2.1 Retrofit, refurbishment, adaptations and remediations £1m-£5m

Lot 2.2 Retrofit, refurbishment, adaptations and remediations £5m+

Lot 3.1 Planned component replacement works and fire safety works £1m-5m

Lot 3.2 Planned component replacement works and fire safety works £5m+

There is no restriction to the number of Lots a supplier can bid for or win.

LCP has reserved places for micro-, small-, medium- and large-enterprises on different Lots in order to encourage SMEs and provide choice for its Clients.

A Reserve List will also be used for this framework for those Tenderers who are unsuccessful in being awarded a place on the main Lots.

The framework will be established with four main objectives in mind:-

1. To support its Clients to deliver on their net zero commitments in the following areas:-

- Biodiversity assets
- Climate Change adaptation
- Zero Carbon Supply Chain
- Low Carbon Transportation
- Operational Low Carbon

2. To provide a fast and efficient route to market for education schemes across London and the Home Counties that offers value for money.

3. To drive positive change in mental health and equality, diversity and inclusion in the construction sector.

4. To apply best practice, unlock innovation and work collaboratively with its Client and the Supply Chain.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with several operators

In the case of framework agreements, provide justification for any duration exceeding 4 years:

LCP and many of its members have 5-year capital programmes. A significant proportion of the capital expenditure will be focused on providing new schools, refurbishment programmes including the retrofit of carbon reduction and environmentally friendly schemes to ensure schools are energy efficient and are decent places to learn.

The establishment of education frameworks of this nature can be costly and time consuming, it is therefore the intention to establish this Framework for a period of five (5) years to align with the capital programmes and provide a consistent contractual vehicle to secure these works.

It is contemplated there will be a mixture of short-, medium- and long-term contracts let through this Framework, with a pipeline of four long term (5+5 year) partnering contracts of between £160m and £200m each in 2024 to support the Council's decent homes programmes.

This Framework is intended to support LCP's members in being able to provide a flexible and compliant route to market to support government funding requirements. A 5-year Framework provides incentives to suppliers to recruit and train staff, as well as access to savings through aggregation of purchaser demand.

IV.1.8) Information about the Government Procurement Agreement (GPA)
