II.1.4) Short description

A seven day per week service supporting the Trust Virtual Ward consisting of:

- Daily attendance and patient review at a VW virtual 'board round' to discuss patients – as appropriate
- Medical decision making & prescribing as required for VW patients
- Escalation to ESHT Consultants from relevant specialties to support the VW team
- Medical advice – available during working hours – for the Virtual Ward team
- Occasional home visiting (rarely required) if it is clearly beneficial and will
- Support the Virtual Ward team in communication and working with carers and relatives
- Support the Trust in the development of Virtual Ward pathways, VW awareness, and efficacy of access/referral/discharge processes

The GPs supporting the service are required to be able to offer face to face reviews occasionally and attend in person some development or service meetings, in a timely fashion and at short notice – i.e. need to be working within East Sussex, able and willing to travel. Noting the requirements above:

- a) The current provider meets ALL the criteria
- b) The quality of the provision to date exceeds expectations and is critical to service quality overall. The service provider has directly support innovation of the service, pathways, promotion or the service within ESHT and wider GP community. They are also working with us on innovating training for VW medical support.
- c) The VW service and GP service provider have a well embedded and positive working relationship. The arrangement offers an exemplar for integrated acute, community and

primary care working and collaboration – to deliver a service that offers better outcomes for patients and use of health and care resources

d) The GP service continues to offer significant value vs recruiting our own GPs, using our own consultant resource or using ‘agency’

e) The service recruits manages and provides GPs through the Federation. Lessons and challenges from the ESHT approach to recruiting in-house GPs for our UTC model indicate that this approach, working with the Federation, is more sustainable, more resilient and more cost-effective. (We are exploring options to use this model for other services)

f) The GP service provided is critical to delivery of the VW – which represents an increase in patient choice
