## Services

### **II.1.4) Short description**

The Crime Survey for England and Wales (CSEW) provides essential statistics for measuring crime across England and Wales. The survey has traditionally been a face-to-face victimisation survey in which people resident in households in England and Wales are asked about their experiences of a range of crimes in the 12 months prior to the interview. Telephone interviews replaced face-to-face interview between May 2020 and March 2022 following the introduction of covid-19 restrictions. The ONS has been undertaking a programme of transformation for the CSEW and it is expected that the survey will operate as a mixed mode longitudinal survey in the future. The contract will require a mixed mode approach to fieldwork to deliver at least 70,000 interviews a year.
