Body governed by public law

I.5) Main activity

Other activity

Research

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

UKRI-1433 Electrical Maintenance Services at Daresbury Laboratory

Reference number

UKRI-1433

II.1.2) Main CPV code

- 50532000 - Repair and maintenance services of electrical machinery, apparatus and associated equipment

II.1.3) Type of contract

Services

II.1.4) Short description

UK Research and Innovation has a requirement to establish a contract for a single Contractor to provide Electrical Maintenance Services.

The following assets are on site and a full asset register is included as part of the tender documentation within Appendix G.

Portable Appliance Testing

Fixed Wire Testing

UPS

Lightning Protection

For each asset, there are three key components of the services:

- 1) Maintenance Service Delivery – Compliance Planned Preventative Maintenance (CPPM), Planned Preventative Maintenance (PPM), Remedial works and reactive works;
- 2) Asset Management Service – Verification and tagging of assets where data is missing;
- 3) Minor Works – projects related to the assets up to the value of £50,000 where the Client

will provide a specification

The services do not include the management of Fume Cupboards or specialist Local Extract Ventilation.

II.1.5) Estimated total value

Value excluding VAT: £1,140,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

II.2.4) Description of the procurement

Maintenance Service Delivery

CPPM and PPM - The Contractor shall carry out all tasks described within the Electrical specification with due regard to operation and maintenance information, manufacturer's instructions, industry best practice and any other instructions issued by the Client to the Contractor. The Contractor shall ensure that maintenance tasks are carried out to ensure that any warranties are not invalidated.

Low Voltage Systems - The Contractor will develop a 5-year periodic inspection and testing (fixed wire testing) plan for all buildings and electrical infrastructure. Reactive Maintenance - The Client may require reactive maintenance services for other assets not included in the asset register

Reinstatement - On completion of any of the services the Contractor shall ensure that all assets and any other items of equipment, control settings, etc., have been reinstated to the correct operational configuration and status.

Minor Works - The Contractor may be expected to manage and / or deliver Minor Capital

Works i.e. works typically up to £50,000 in value as Additional Works.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £1,140,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

36

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure
