I.3) Communication

Additional information can be obtained from the above-mentioned address

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Collective Buying of Solar PV

Reference number

GLA 81920

II.1.2) Main CPV code

- 09331000 - Solar panels

II.1.3) Type of contract

Supplies

II.1.4) Short description

The GLA will be seeking a supplier to run a fifth London-wide round of the London Collective Solar Scheme in Spring 2022 in addition to potential future annual rounds (subject to budget and approval). Services provided by the supplier would include:

- Design and maintenance of an online platform and running the reverse auction
- Procurement of suppliers
- Provision of a dedicated helpdesk throughout the scheme
- Supporting boroughs in organising and attending local information sessions
- Technical oversight
- Marketing and communications (including content for materials issued by the GLA and London boroughs)
- Quality assurance oversight including a robust complaints procedure
- Detailed progress reporting
- Final report and evaluation

The GLA is aiming for the fifth round and any future rounds to be London-wide and to result in the installation of a greater number of PV panels, batteries and electric vehicle charging points than previous rounds.

The GLA will support London boroughs financially to inform and promote the scheme.

It is anticipated this would be delivered through a Concession Agreement.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKI - London

II.2.4) Description of the procurement

The GLA will be seeking a supplier to run a fifth London-wide round of the London Collective Solar Scheme in Spring 2022 in addition to potential future annual rounds (subject to budget and approval). Services provided by the supplier would include:

- Design and maintenance of an online platform and running the reverse auction
