Tender

For the provision of Street Litter Bins

Oldham Council

F02: Contract notice

Notice identifier: 2021/S 000-017460

Procurement identifier (OCID): ocds-h6vhtk-02cba2

Published 23 July 2021, 11:14am

Section I: Contracting authority

I.1) Name and addresses

Oldham Council

Civic Centre, West Street

Oldham

OL1 1 QJ

Email

emma.wall@oldham.gov.uk

Country

United Kingdom

NUTS code

UKD3 - Greater Manchester

Internet address(es)

Main address

<http://www.oldham.gov.uk/>

Buyer's address

<http://www.oldham.gov.uk/>

I.3) Communication

The procurement documents are available for unrestricted and full direct access, free of charge, at

www.the-chest.org.uk

Additional information can be obtained from the above-mentioned address

Tenders or requests to participate must be submitted electronically via

www.the-chest.org.uk

I.4) Type of the contracting authority

Regional or local authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

For the provision of Street Litter Bins

Reference number

DN556710

II.1.2) Main CPV code

- 34000000 - Transport equipment and auxiliary products to transportation

II.1.3) Type of contract

Supplies

II.1.4) Short description

Oldham Council currently has 1172 public street litter bins servicing the whole Borough, dispersed across each of its district centres, corridor gateways, main roads, estates, parks, cemeteries and countryside areas also contain litter bins; however, these bins are not included in this figure. The current make-up of these bins covers a wide variety of styles and sizes each having an impact which affects frequency of service and resources are assigned to this operation.

The service will move away from the current bin style of small metal lined units of 90 litre internal capacity with a proposed change to move to 240 litre bin housing units which will contain a large standard domestic refuse wheelie bin.

Its proposed to adopt a new style bin with only one singular aperture opening. Trial of a new design has already been tested across the Borough in areas where misuse has been identified. The new design eliminates the opportunity to force large bags into the bin by only having a limited sized aperture which can take singular pieces of litter up to and including full size pizza box.

In addition to the standard street bins, it is proposed to replace bins within Oldham Town Centre with a new (eco-friendly) solar powered type. The new bins which utilise solar power to power a compactor, allows a normal 240 litre wheelie bin to hold the capacity of a large commercial 1100 litre bin. These new bins incorporate modern software technology, utilising mobile networks which can update officers directly when they require emptying; this via a smart phone app which staff can access on work devices rather than

attending daily.

Therefore, Oldham Council are looking to procure approximately 1200 Street Litter bin housings; however, this number may increase or decrease subject to needs and requirements. In addition we are also looking to procure 20 x 240ltr solar powered bins to complete this large scale replacement program.

II.1.5) Estimated total value

Value excluding VAT: £480,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKD3 - Greater Manchester

II.2.4) Description of the procurement
