The service will offer advice and support to care co-ordinators from the service users' home area and may provide consultation and advice via teleconferencing facilities.

The services provide expertise in the assessment, treatment and recovery of people who are deaf, likely to use British Sign language and have a serious mental health problem. Services may also specialise in the support of those people who are deaf and offend (Secure Services). The service can provide assessment, treatment, and care including long-term rehabilitation and short-term treatment.

The contract is to deliver Tier 4 children's and Young People's Mental Health Medium Secure In-patient service (MSUs)

The secure system for young people in England is complex and there is no 'high secure' environment for children and young people. This means the most complex and vulnerable children and young people will be supported within MSUs. The predominant need for care and treatment will relate to the young person's assessed risk of harm to self and/or others because of their mental health need.

The contract started 1st April 2025 and will run for an initial period of 5 years, with the Commissioner having the option to extend the Contract for up to a further 2 years. The approximate total lifetime value of the initial contract period is estimated to be £23,156,700 (Annual value of £4,631,340).
