Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

Negotiated procedure without prior publication.

Justification for selecting award procedure:

Regulation 33(c) where (but only if it is strictly necessary) for reasons of extreme urgency brought about by events unforeseeable by the contracting authority, the time limits for open procedure, restricted procedure or competitive procedure with negotiation cannot be complied with.

Only through the recent conclusion of a project to fully analyse and review ventilation in all naturally ventilated spaces within the University, combined with no reduction in the covid heightened ventilation guidance introduced during the pandemic, did it become apparent that existing ventilation would not be suitable for campus needs within teaching spaces.

While ventilation has been a concern throughout the pandemic period, it was only through conclusion of the project and the fact that Covid 19 ventilation guidance has not reduced that the need to enhance air purification to meet campus needs became clear. That had not been foreseen by the University. With the existing ventilation system, capacity within teaching spaces would be compromised and would not allow timetabling to conclude successfully for new semester.
