II.2.4) Description of the procurement

The aim of this procurement is to establish non-emergency patient transport services across the NHS Suffolk and North East Essex Integrated Care Board (ICB) locality.

The Non-Emergency Patient Transport Service (NEPTS) will be provided to all eligible patients within the locality. Currently over 13,500 journeys per month are undertaken.

NEPTS are a key enabler underpinning access to elective care and supporting timely and efficient discharge processes for acute and community providers. As a partner within the system, the NEPTS provider will support improvements across the system, enabling patient choice and equitable access for elective care.

National planning guidance breaks down the patient transport system into four core components.

- triage and co-ordination

- specialist services, which will require trained staff, often an adapted/specialist vehicle where the provider will be registered with the CQC.

- non-specialist services, where a regular taxi or minibus is appropriate.

- reimbursement for private or public transport, either as part of NEPTS or the Healthcare Travel Cost Scheme (HTCS).

Consideration within these elements needs to be given to system relationships, improving integrated patient pathways including discharges, the wider transport system, including urgent services and local authority provision.

The Contract will be for a term of 60 months (five years), with the possibility of extending the term for a period of 60 additional months (five years) beyond the initial contracted duration by agreement between the Authority and the Provider.

The anticipated aggregate contract value is £123,226,440. across the potential 10 years, but this figure is subject to the tender process.

This notice is to inform providers of the release of documentation to initiate a competitive process to secure a Provider(s) to deliver this service.

In order to express an interest in this service and access the documentation, free of charge, please register on the In-tend portal via the following address and express an
