## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

DGM/2000 Research and Development into MAB Requirements

Reference number

DGM/2000

#### **II.1.2) Main CPV code**

- 73400000 - Research and Development services on security and defence materials

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

Research and Development; into follow-on research work for further development of three projects. The type of work consists of improving upon in-service capabilities offering potential new solutions to current requirements. Demonstrations, trials and physical prototypes will be developed and undertaken to prove the concepts of each project. The work contracted will be a continuation of existing development in the following areas: Noise and flash grenades for use in non-permissive environments. Development of propellant for use in non-permissive environments. Further development of a lightweight portable heavy breaching capability.

#### **II.1.6) Information about lots**

This contract is divided into lots: No

#### **II.1.7) Total value of the procurement (excluding VAT)**

Value excluding VAT: £208,000

### **II.2) Description**

#### **II.2.3) Place of performance**

NUTS codes

- UKK23 - Somerset

#### **II.2.4) Description of the procurement**

DGM has a 1 year requirement for Research and Development into MAB Requirements.

#### **II.2.5) Award criteria**

Price

#### **II.2.11) Information about options**

Options: No

#### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

---

## Section IV. Procedure

### IV.1) Description

#### IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- No tenders or no suitable tenders/requests to participate in response to negotiated procedure with prior publication of a contract notice
- The products involved are manufactured purely for the purpose of research, experiment, study or development
- The works, supplies or services can be provided only by a particular economic operator for the following reason:
  - absence of competition for technical reasons

Explanation:

Limit of Liability of £208,000.

Justification For Non-Competitive Decision: The contract is exempt from the EU Regulations (DSPCR 2011) due to it being below the financial threshold. The Authority is contracting Event Horizon to build on existing proof of concept/capability demonstrations for multiple concepts that they delivered under previous contracts with the UK MOD in order to prove those concepts are compatible and functional products. This work is still classified as proof of concept. We consider that competing this capability would result in re-work of Event Horizon's existing findings from 2016. Contracting another supplier would result in a loss of the technical know-how and experience that Event Horizon has developed in the previous contracts, which is fundamental to proving the concept of these capabilities. The consequences of running a competition for this work would not result in value for money for the Authority due to the disproportionate costs it would require for a new supplier to become technically competent.

#### IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No
