VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

The waste strategy being delivered in 23-24 changes the way CCC processes recycling material. This means the existing waste facilities (Material Recycling Facility and Waste Transfer Station) require reconfiguration to process new waste streams and to comply with current NWR legislation for fire protection.

Redesign of the facilities are in progress, however until the new service is in place it is uncertain what type/numbers of plant equipment . A 2-year extension on the existing plant contract will allow time to determine future requirements.

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

The waste strategy being delivered in 23-24 changes the way CCC processes recycling material. This means the existing waste facilities (Material Recycling Facility and Waste Transfer Station) require reconfiguration to process new waste streams and to comply with current NWR legislation for fire protection.

Redesign of the facilities are in progress, however until the new service is in place it is uncertain what type/numbers of plant equipment . A 2-year extension on the existing plant contract will allow time to determine future requirements.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £2,376,958

Total contract value after the modifications

Value excluding VAT: £3,327,741
