Published 29 April 2025, 5:44pm

Scope

Description

Scope of activity

We expect activities delivered through this project will:

- Increase the number of startups (pre-seed / series A) based outside of London, or support the growth of existing regionally-based startups (or a combination of these objectives). While we will not rule out programme activity focused on specific sub-sectors due to specific regional strengths – we expect the majority of programme activity to result in benefits (and insights / learnings) that can be transferred or applied more widely across the tech sector as a whole.
- Deliver benefits across the UK, and at a minimum more than three NUTS1 regions.
- Not duplicate existing activity in regional digital ecosystems. This funding cannot be allocated to existing programmes that the bidders already run, ensuring that the project is adding something new and valuable to the ecosystem, rather than sustaining current operations. We expect providers to demonstrate understanding of existing activity occurring in ecosystems and how this new activity is complementary or additive to existing efforts.

Conditions of Participation

This competition is open to UK registered entities. Bidders may take the form of sole legal entities or may wish to combine to form consortia or other partnerships. Specific eligibility criteria include:

- Bidders must be UK registered entities and have a significant UK presence and deep knowledge of the UK tech sector .
- The Bidder must submit only one bid.
- Individual organisations are not permitted to bid as part of more than one consortium -
- The following organisations are not eligible to bid:
 - o Government departments (the includes the UK government and the devolved governments of Scotland, Wales and Northern Ireland)
 - o Local Authorities (LAs)
 - o Non-departmental public bodies (NDPBs)
 - o Arm's-length bodies (ALBs)

If bidders decide to put forward a joint bid, a lead partner organisation must submit the bid on behalf of all parties and shall be responsible for all communication with the Department during the competition processes. The Lead bidder will be the primary contractor and who will be responsible for managing the consortium's activities. The Bidder must submit a structure diagram identifying the roles and relationships between the organisation including all relevant companies, their respective parent or ultimate holding companies. The structure should make clear who will be responsible for delivery of which activities are borne by an entity or entities which satisfy the financial and economic requirements set out in the ITT.

Total value (estimated)

- £800,000 excluding VAT
- £1,000,000 including VAT

Above the relevant threshold
