Regional or local authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

WFRS & NFRS Control Room Systems Replacement (Integrated ICCS & CAD)

Reference number

00012007

II.1.2) Main CPV code

- 48000000 - Software package and information systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

Warwickshire County Council (the Council) and The Police, Fire and Crime Commissioner for Northamptonshire acting as the Northamptonshire Fire and Rescue Authority (NFRA) are seeking to replace their key control room systems for Warwickshire Fire and Rescue Service (WFRS) and Northamptonshire Fire and Rescue Service (NFRS).

The Council will be acting as lead Authority and managing the procurement process for both Authorities. The successful Applicant will enter into two contracts, one with the Council and one with NFRA.

In summary the systems to be replaced are the Communications and Control System (ICCS) and the Command and Control/Dispatch System (CAD).

II.1.5) Estimated total value

Value excluding VAT: £2,500,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 32573000 - Communications control system
- 35710000 - Command, control, communication and computer systems
- 42961000 - Command and control system

II.2.3) Place of performance

NUTS codes

- UKF2 - Leicestershire, Rutland and Northamptonshire
- UKG1 - Herefordshire, Worcestershire and Warwickshire

Main site or place of performance

The County Council boundaries of Warwickshire and the operational area of the Police, Fire and Crime Commissioner for Northamptonshire

II.2.4) Description of the procurement

WFRS and NFRS require a cloud based command and control mobilising system (with integrated ICCS/CAD functionality) that allows for inter-operability, for service wide deployment, through a mobile and web-based version. WFRS and NFRS are seeking a flexible portable system that can be used from multiple secure sites.

The solution delivered will allow for inter-operability with WFRS & NFRS. The inter-operable solution will provide separate instances for each services with access to each others. If either service terminates its agreement with the Supplier, the remaining service should not be able to access the separate data of the departing customer.

For both WFRS and NFRS the systems need to be fully live by the end of 2022, preferably with the ICCS element going live first (if this is possible).

To ensure that the system procured meets expectations NFRS/WFRS are committed to getting the best possible system to suit its needs whilst ensuring that any system will be fully ESN compliant.

The available combined budget envelope for the joint system is estimated as being £2.2m for the 5 years to £2.5m over the whole contract period i.e. 7 years with upper end of the budget looking for a solution that exceeds our requirements and provides operational efficiencies. This provides an individual budget for each Service of c £1.1m over 5yrs (incl maintenance & support), and £1.25m over 7yr period.

Bids that exceed these budgetary ranges may be disqualified from the procurement process. The Council and NFRA also reserve the right to only award a contract for one service if a bid exceeds a services capital budget element.

Further details are included in the ITT and Appendices.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement

documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

60

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: Yes

II.2.11) Information about options

Options: Yes

Description of options

Initial term 5 years (from go-live) - however the Council and NFRA reserve the right to extend their respective contracts by further successive periods up to a maximum available extension period of 24 months at the discretion of the Council and NFRA based on their future requirements and contract performance of the successful Applicant. The decision to extend may be taken independently and result in only one party deciding to extend their contract.

II.2.14) Additional information

During the course of the contract period the range and scope of all these services may be subject to modification and variation to meet the changing needs and requirements of both the Council and NFRA, potential changes in legislation and the changing demands placed on the Council and NFRA by their customers and residents. Examples of these are listed in the ITT.

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

All as detailed in the tender documentation

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents
