I.4) Type of the contracting authority

Regional or local authority

I.5) Main activity

Other activity

fire & rescue service

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

ASSET TAGGING & SOFTWARE FOR OPERATIONAL EQUIPMENT ASSET MANAGEMENT

Reference number

DN676082

II.1.2) Main CPV code

- 72000000 - IT services: consulting, software development, Internet and support

II.1.3) Type of contract

Services

II.1.4) Short description

The Authority are tendering for an asset management solution to record and manage its operational equipment (on fire appliances and other technical support units*). The solution must provide testing functionality, and track all aspects of a defined item from cradle to grave. The supplier will need to provide the initial physical asset tagging and data collection services for the implementation phase (20k+ items). Therefore, we will only consider suppliers who are able to provide this full end-to-end service, whether it be in-house or via a 3rd party partner (preferably under sub-contract and with a single point of contact for account management acting as a main contractor). *(56 stations and 75 front line fire engines and a range of specialist operational support vehicles. For more information go to: <https://www.kent.fire-uk.org/our-buildings-fleet-and-equipment>)

II.1.5) Estimated total value

Value excluding VAT: £350,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKJ4 - Kent

II.2.4) Description of the procurement

The Authority are tendering for an asset management solution to record and manage its operational equipment (on fire appliances and other technical support units*). The solution must provide testing functionality, and track all aspects of a defined item from cradle to grave. The supplier will need to provide the initial physical asset tagging and data collection services for the implementation phase (20k+ items). Therefore, we will only consider suppliers who are able to provide this full end-to-end service, whether it be in-house or via a 3rd party partner (preferably under sub-contract and with a single point of contact for account management acting as a main contractor). *(56 stations and 75 front line fire engines and a range of specialist operational support vehicles. For more information go to: <https://www.kent.fire-uk.org/our-buildings-fleet-and-equipment>)

Software Solution

The preferred way forward to improve asset management would be to procure an online solution. An online solution will provide all the essential features that we require to track and correctly name all the defined operational assets that the Service currently has. By having an online solution, it will eliminate the need for separate spreadsheets, and allow all the information to be stored in one reliable place. Therefore, by having all the information in one place, it will be easier to know when assets/equipment are due to be serviced, and also if anything has been lost and needs to be replaced. It will also ensure that all assets are serviced correctly throughout the year.

An online solution will have the ability to create custom bespoke reports for the Service, making it simple and easy to manage the defined assets and make the recording of all assets consistent. It will be a more efficient way of asset management for the Service, and it will also allow us to reduce corporate and personal risk by achieving compliance.

Initial Physical Tagging of Assets & Data collection

The Authority lack the resources to undertake the work of initially bulk tagging assets and if it were to be undertaken in-house would significantly extend the timeline of the project. Therefore, we are including this work in the scope of the tender.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £350,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

60

This contract is subject to renewal

Yes

Description of renewals

Initial Contract Term 5 Years + 5 optional extensions of 1 year each

II.2.10) Information about variants

Variants will be accepted: Yes

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

10 August 2023

Local time

12:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.7) Conditions for opening of tenders

Date

10 August 2023

Local time

12:00pm

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: Yes

VI.4) Procedures for review

VI.4.1) Review body
