Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The TestEd programme was established developed and optimised using a Tecan robot platform. It is therefore not feasible in the timeframe required for the project to re-develop the pipelines using an alternate robot manufacturer. This is particularly relevant as the robots require significant consumables and these are not readily compatible between manufacturers. In addition the Tecan platform has unique technical advantages making it suited to the required application.
