Port-related activities

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Maintenance Dredging Channel

II.1.2) Main CPV code

- 45252124 - Dredging and pumping works

II.1.3) Type of contract

Works

II.1.4) Short description

London Gateway Port Limited (LG) is a statutory Harbour Authority by virtue of the London Gateway Port Harbour Empowerment Order 2008 (the HEO) which allows for the construction and operation of DP World London Gateway Port (the Port). Pursuant to article 13 of the HEO (Power to Dredge), LG has the power to dredge, deepen, scour, cleanse, alter, improve the river bed and foreshore to the extent described in Schedule 3 of the HEO, or as may be required for the purpose of maintaining the works described in Schedule 3.

As part of the Port's requirements, LG intends to carry out a maintenance dredging in the Yantlet channel (Thames Estuary). This campaign, to start in Q4 2023, will focus in the areas within HEO's limits of deviation (areas under the HEO in which LG can carry out works) (see below figure), with a maximum volume to be dredged of circa 1.5Mm³.

LG has a Port of London Authority dredge licence in place (valid until 17 March 2025) covering one campaign/year up to 1.5Mm³/year in Ebb tide. Sediment samples were collected in June 2022 and results can be provided to tenderers. LG is currently in the process of obtaining a marine disposal licence allowing a maximum quantity of up to 2 million m³ of dredge material to be disposed of over a three-year period between two disposal sites (South Falls and Inner Gabbard). There is also an option to discharge part of the material onshore at Berth 5 of the Port, subjected to obtain the corresponding permits from the relevant Regulators.

With a final target level of -14.50mCD, tenderers can consider using Trailing suction hopper dredger as well as water injection dredger to assist in the effectiveness of the dredging.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 45252124 - Dredging and pumping works

II.2.3) Place of performance

NUTS codes

- UKH3 - Essex

II.2.4) Description of the procurement

London Gateway Port Limited (LG) is a statutory Harbour Authority by virtue of the London Gateway Port Harbour Empowerment Order 2008 (the HEO) which allows for the construction and operation of DP World London Gateway Port (the Port). Pursuant to article 13 of the HEO (Power to Dredge), LG has the power to dredge, deepen, scour, cleanse, alter, improve the river bed and foreshore to the extent described in Schedule 3 of the HEO, or as may be required for the purpose of maintaining the works described in Schedule 3.

As part of the Port's requirements, LG intends to carry out a maintenance dredging in the Yantlet channel (Thames Estuary). This campaign, to start in Q4 2023, will focus in the areas within HEO's limits of deviation (areas under the HEO in which LG can carry out works) (see below figure), with a maximum volume to be dredged of circa 1.5Mm3.

LG has a Port of London Authority dredge licence in place (valid until 17 March 2025) covering one campaign/year up to 1.5Mm3/year in Ebb tide. Sediment samples were collected in June 2022 and results can be provided to tenderers. LG is currently in the process of obtaining a marine disposal licence allowing a maximum quantity of up to 2 million m3 of dredge material to be disposed of over a three-year period between two disposal sites (South Falls and Inner Gabbard). There is also an option to discharge part of the material onshore at Berth 5 of the Port, subjected to obtain the corresponding permits from the relevant Regulators.

With a final target level of -14.50mCD, tenderers can consider using Trailing suction hopper dredger as well as water injection dredger to assist in the effectiveness of the dredging.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

6

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: Yes

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Restricted procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

26 July 2023

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.6) Minimum time frame during which the tenderer must maintain the tender

Duration in months: 9 (from the date stated for receipt of tender)

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.2) Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

VI.4) Procedures for review

VI.4.1) Review body

London Gateway Port Limited

No 1 London Gateway
