The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- Additional deliveries by the original supplier

Explanation:

This relates to the variation of an existing contract. Proposed cost increases to the existing contract are attributable to the on-going increasing costs associated with transport and processing (eg fuel, particularly the move from red to white diesel, energy and staffing) which have been fuelled by not only Brexit and economies restarting following Covid but also the more recent increase in National Insurance costs. The Russia/Ukraine war has also exacerbated fuel and energy costs on a global level.

Due to the current uncertainty and volatility around fuel and energy costs an extension of 6 months has been proposed. As the contract exit date will be 11 November 2023 further extensions under the contract are available to the Council. The council are content that the proposed increased rates still represent value for money in terms of the original procurement. It is reasonable to assume that contractors would not have foreseen the current cost increases in delivering services under the contract at time of tendering.

This direct award is permitted by Regulation 72(1)(c) of the Public Contracts Regulations 2015

(c) where all of the following conditions are fulfilled:—

- (i) the need for modification has been brought about by circumstances which a diligent contracting authority could not have foreseen;
- (ii) the modification does not alter the overall nature of the contract;
- (iii) any increase in price does not exceed 50% of the value of the original contract or framework agreement.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession
