Section II: Object

II.1) Scope of the procurement

II.1.1) Title

C1232- Security Management System PQQ

II.1.2) Main CPV code

- 79993100 - Facilities management services

II.1.3) Type of contract

Services

II.1.4) Short description

The Contract is for the provision Security Management Systems for electronic fire and security systems on the Clients' Estate of Critical National Infrastructure sites. The SMS capability provides a comprehensive range of electronic fire and security related systems across the applicable NI Water sites. Management of this capability is facilitated with centralised on premises platforms which consolidate reporting by integrating data and alerts into a single user interface utilising ISMS. The SMS enables data such as CCTV images and alarm activations from CNI sites to be viewed centrally and actioned accordingly. The contract will principally deal with re-active repairs, planned maintenance, quotation work, minor project work, and where requested information gathering relating to the Client's security assets, which will inform the Client's future security management strategy to fully meet operational and regulatory requirements.

II.1.5) Estimated total value

Value excluding VAT: £5,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 72514300 - Facilities management services for computer systems maintenance
- 79993000 - Building and facilities management services

- 35121700 - Alarm systems
- 31625200 - Fire-alarm systems
- 45312100 - Fire-alarm system installation work
- 79711000 - Alarm-monitoring services
- 35125300 - Security cameras
- 50610000 - Repair and maintenance services of security equipment

II.2.3) Place of performance

NUTS codes

- UKN - Northern Ireland

II.2.4) Description of the procurement

The Contract is for the provision Security Management Systems for electronic fire and security systems on the Clients' Estate of Critical National Infrastructure sites. The SMS capability provides a comprehensive range of electronic fire and security related systems across the applicable NI Water sites. Management of this capability is facilitated with centralised on premises platforms which consolidate reporting by integrating data and alerts into a single user interface utilising ISMS. The SMS enables data such as CCTV images and alarm activations from CNI sites to be viewed centrally and actioned accordingly. The contract will principally deal with re-active repairs, planned maintenance, quotation work, minor project work, and where requested information gathering relating to the Client's security assets, which will inform the Client's future security management strategy to fully meet operational and regulatory requirements.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £5,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

This contract is subject to renewal

Yes

Description of renewals

2 optional 2 year extensions available, please see tender documents

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds
