Tenders or requests to participate must be submitted to the above-mentioned address

I.6) Main activity

Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Topographical and Utility Suverys Framework

II.1.2) Main CPV code

- 71351810 - Topographical services

II.1.3) Type of contract

Services

II.1.4) Short description

A topographical and underground utilities survey framework is required to support with optioneering, outline and detailed design phases to be completed by the Utilities design teams and consultants.

The Suppliers will be able to undertake all types of investigations and support work, including but not limited to:

- Land surveying, including drone.
- Laser scanning and revit modelling.
- Utility mapping to PAS128:2014 standard.

Land surveying

As part of the Land surveying requirements, there are 3 different types of surveys specified which include;

- Type A Surveys which are for those on sites such as treatment works where multiple critical structures exist.
- Type B Surveys which are for more generic topographical surveys.
- Type C Surveys which are for long linear surveys such as longer pipeline routes.

Laser scanning

As part of the Terrestrial Laser Scanning requirements, devices will employ a laser to automatically measure three dimensional coordinates on the surface of an object. The collection of these XYZ co-ordinates will be in a common coordinate system that portrays to the viewer an understanding of the spatial distribution of a subject or a site.

Utility mapping

The Utility mapping requirements will be based on PAS128:2014. PAS128:2014 take a hierarchical approach to the survey types used in recognition that different clients at different stages of an asset life cycle will require different levels of detail. PAS128:2014 defines four types of survey:

- Desktop utility records search (survey type D)
- Site reconnaissance (survey type C)
- Detection (survey type B)

II.1.5) Estimated total value

Value excluding VAT: £3,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The service will be to provide topographical, utility and laser scanning surveys to aid with the Utilities designs.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

36

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

4 August 2022

Local time

12:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.7) Conditions for opening of tenders

Date

4 August 2022

Local time

12:01pm

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.4) Procedures for review

VI.4.1) Review body

Severn Trent Water

Coventry

Country

United Kingdom
