Country

United Kingdom

NUTS code

- UKN06 - Belfast

Internet address

www.irishwaste.net

The contractor/concessionaire is an SME

Yes

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

The cost increase has been attributable to the increasing energy and fuel costs (also the ban on the use of red diesel and move to white

diesel) which directly impacts on the operation of the Materials Recovery Facility, the driver and employee shortage challenge within the

haulage and waste processing industries which has necessitated employers reviewing their pay scales and terms and conditions not only

to hold on to existing staff but also to attract new staff and increasing costs for the manufacture and supply of components and parts

used in the maintenance of plant, equipment and waste containers. The recent increase in National Insurance costs has also impacted

on staffing costs. The transition of world economies out of Covid, Brexit and its impact of the war in Ukraine have directly contributed to

the current economic climate of rising costs. It is worthwhile noting that UK inflation currently stands at around 9% and is expected to

increase further over the coming months. The tender was awarded in early January 2021 and it is therefore reasonable to assume that

contractors would not have foreseen the current cost increases in delivering services under the contract at time of tendering.

This direct award is permitted by Regulation 72(1)(c) of the Public Contracts Regulations 2015

(c) where all of the following conditions are fulfilled:—

(i) the need for modification has been brought about by circumstances which a diligent contracting authority could not have foreseen;

(ii) the modification does not alter the overall nature of the contract;

(iii) any increase in price does not exceed 50% of the value of the original contract or framework agreement.

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

The cost increase has been attributable to the increasing energy and fuel costs (also the ban on the use of red diesel and move to white

diesel) which directly impacts on the operation of the Materials Recovery Facility, the driver and employee shortage challenge within the

haulage and waste processing industries which has necessitated employers reviewing their pay scales and terms and conditions not only

to hold on to existing staff but also to attract new staff and increasing costs for the manufacture and supply of components and parts

used in the maintenance of plant, equipment and waste containers. The recent increase in National Insurance costs has also impacted

on staffing costs. The transition of world economies out of Covid, Brexit and its impact of the war in Ukraine have directly contributed to

the current economic climate of rising costs. It is worthwhile noting that UK inflation currently stands at around 9% and is expected to

increase further over the coming months. The tender was awarded in early January 2021 and it is therefore reasonable to assume that

contractors would not have foreseen the current cost increases in delivering services under the contract at time of tendering.

This direct award is permitted by Regulation 72(1)(c) of the Public Contracts Regulations 2015

(c) where all of the following conditions are fulfilled:—

(i) the need for modification has been brought about by circumstances which a diligent contracting authority could not have foreseen;

(ii) the modification does not alter the overall nature of the contract;

(iii) any increase in price does not exceed 50% of the value of the original contract or framework agreement.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £2,490,000

Total contract value after the modifications

Value excluding VAT: £2,875,000
