Automatic Number Plate Recognition Enforcement

Manchester City Council

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-018018

Procurement identifier (OCID): ocds-h6vhtk-050a3c

Published 30 April 2025, 2:00pm

Scope

Description

Manchester City Council intend to set up an Automatic Number Plate Recognition Enforcement Framework through which we can procure our future requirements for enforcement of Bus Lanes, Moving Traffic Offences and Cycle Lanes.

The framework will support the purchase of Enforcement Units that can be installed on Street Lighting Columns and are capable of automatically detecting potential contraventions. Sending evidence packs to a central review client to enable the Council's Civil Enforcement Officers is required. Following this, a review of each video clip will be undertaken to support the decision as to whether a contravention has in fact occurred.

The council intends to appoint two suppliers to the framework; both of whom will be able to provide a fully functional enforcement system with manufacturers approval issued by the Vehicle Certification Agency that is compatible with our existing Notice Processing System (Taranto).

Prior to releasing a specification setting out our requirements for the framework, we intend to undertake a preliminary market engagement exercise. We are reaching out to all suppliers

in the market who can provide such solutions to invite you to an event on 29 May 2025 in Manchester.

Whilst the future needs of the Council cannot be guaranteed or predicted, it may be helpful to know that we currently have:

- 3 Review Clients
- 26 Bus Lane Enforcement Units
- 3 Cycle Lane Enforcement Units
- 13 Moving Traffic Enforcement Units

Commercial tool

Establishes a framework

Engagement

Engagement deadline

16 May 2025

Engagement process description

We are reaching out to all suppliers in the market who can provide solutions detailed in the description to invite you to an engagement session on 29 May 2025 in Manchester.

If you would like to book a slot to attend the event, please email highwaysprocurementssupport@manchester.gov.uk before 5pm on 16th May 2025.

Each supplier will be given a 1-hour session to demonstrate the innovative functionality associated with your solution that is available now (not in production) as set out below. We are particularly interested to see features that will make the end-to-end process as efficient as possible.

The format of the session will be as follows:

Introductions (5 mins)

Presentation from supplier (Highlighting efficiency functionality) (15 mins)

Live demonstration of Review Client (15 mins)

Questions from MCC (15 mins)

Questions to MCC (10 mins)

Once we have familiarised ourselves with the functionality available in the market, our specification will be finalised and released along with our procurement timeline.

Please note the following explanation of the Council's approach to preliminary market engagement; the core principle for underpinning our approach is to ensure probity be maintained throughout the process by strict adherence to the following guidelines:

All potential suppliers are informed that they are invited to participate in soft market testing

Any information provided by the authority to a supplier participating in preliminary market engagement will be shared with all suppliers participating in the exercise.

Any information provided by a supplier participating in preliminary market engagement will be deemed as commercially sensitive, and handled by the authority in such a manner as to ensure commercial confidentiality is not violated.

Any information provided by a supplier participating in preliminary market engagement will not be shared with any third party without the express permission and written consent of the participating supplier.

The preliminary market engagement exercise is to be undertaken to ascertain if the Council wished to proceed to a competitive tender process and if so will help inform how such a process is undertaken and will assist the Council to shape their requirements to ensure that they obtain the best solution to meet their needs and that will be most attractive to the market to ensure as much competition as possible.

If the outcome of the preliminary market engagement is such that the authority decides to go out for a competitive tender (N.B: the Council reserves the right not to do so if it so decides or to utilise other procurements routes open to it such as pre-tendered national/regional/other frameworks), then all suppliers who have participated in the preliminary market engagement will be notified of the tendering opportunity.

Participation in the preliminary market engagement does not mean that you will automatically qualify for the tender opportunity and all prospective tenders, irrespective of previous participation, will be required to register and meet the conditions of participation of the tender at that time.
