I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Circular Economy Gap Analysis

Reference number

UOE/2024/004/JU

II.1.2) Main CPV code

- 79400000 - Business and management consultancy and related services

II.1.3) Type of contract

Services

II.1.4) Short description

We need the winning bidder to provide the specialist expertise necessary to undertake a mixture of desktop and client focussed research to deliver Circular Economy Gap Analysis reports, including but not limited to initial CE pain point and value chain opportunity mapping, diagnostic and prioritisation of potential interventions, financial business case development, and implementation strategies and programmatic activities across a variety of funders and value chain stakeholders. The winning bidder requires a track record in CE data analytics, modelling and quantification methodology, programming capabilities aligned to specific CE visualisation and modelling approaches and ability to link material and product data across value chain activities and vertically at sectoral and national scale. The winning bidder must be able to work at speed and to deliver effective results and outcomes against demanding client needs and expectations.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £180,000

II.2) Description

II.2.2) Additional CPV code(s)

- 79311410 - Economic impact assessment

II.2.3) Place of performance

NUTS codes

- UKK4 - Devon

II.2.4) Description of the procurement

The Exeter Centre for the Circular Economy (ECCE) is part of the faculty of Environment, Science and Economy (ESE) at the University of Exeter. Our multidisciplinary team undertakes Circular Economy (CE) research to support the transformation to system wide change. We actively support businesses on their journey to a more circular and sustainable future and engage in projects that develop CE theory and practice designed to transform the economy, creating regenerative wealth and well-being.

We need the winning bidder to provide the specialist expertise necessary to undertake a mixture of desktop and client focussed research to deliver Circular Economy Gap Analysis reports, including but not limited to initial CE pain point and value chain opportunity mapping, diagnostic and prioritisation of potential interventions, financial business case development, and implementation strategies and programmatic activities across a variety of funders and value chain stakeholders. The winning bidder requires a track record in CE data analytics, modelling and quantification methodology, programming capabilities aligned to specific CE visualisation and modelling approaches and ability to link material and product data across value chain activities and vertically at sectoral and national scale. The winning bidder must be able to work at speed and to deliver effective results and outcomes against demanding client needs and expectations.
