### **Scope**

### **Reference**

CWC25171

### **Description**

The council required a contract for the haulage and processing of dry mixed recycling (DMR). This is a statutory requirement and to maintain the operation of the city's domestic and commercial kerbside collection services and also allows households the opportunity to deliver their household recycling to the councils Household Waste Recycling Centres

(HWRC's). The council also provides recycling skips at its retail markets for traders to dispose of recycling waste.

The kerbside collection service, HWRC and retails markets services currently collect the recycling as single stream dry mixed recycling meaning that all paper, cardboard, cans,

bottles and tins are collected in one bin or skip. This recycling is taken to the waste transfer station, located in Crown Street, WV1 to be checked for contamination and loaded into walking floor heavy goods vehicles to go to the providers materials recycling

facility.
