LHC Procurement Group is currently planning a re-procurement of our modular buildings framework and is seeking expressions of interest from suitable organisations to enable LHC PG to enter into discussions and gather feedback from the market about our plans from the upcoming procurement as part of our early market engagement activities.

The scope of the re-procurement will be to replace our popular modular buildings framework and will be for the provision of modular buildings for the public sector for use by Education, Healthcare, offices and community buildings including emergency services. The new framework will encompass a full turnkey solution i.e. design, supply, install, and commission of both permanent and temporary modular buildings.

LHC intend to carry out further engagement webinars with interested parties in due course to discuss our initial proposals, timescales for the tender and gain feedback before finalising the framework and issuing the tender.
