II.2.4) Description of the procurement

The overall aim of the service is to support, empower and enable children, young people and families particularly during the pre and post assessment stages of their assessment journey with models of support that complement services which already exist, are needs led, family centred, child or young person focused, innovative, trusted and responsive to families for the Suffolk and North East Essex population, excluding Waveney.

Support will be offered to carers and the wider family to improve their health and emotional wellbeing, and help equip them with the resilience, tools and practical strategies required for their caring role.

We would anticipate that this approach will include providing awareness of all options and support available across the local partnerships to manage issues with sleep, social, communication and sensory, emotional regulation, attention, and impulsivity needs and will contribute towards the overall journey for children, young people and their parents and carers.

As part of the procurement process, we would like to invite all prospective bidders who consider that they could deliver any of these elements to our Market Engagement Event, via Teams, on the morning of Wednesday 17th July 2024.
