## **Driver and Vehicle Agency - Supply, Delivery, Installation, Calibration, Commissioning and Maintenance of a Vehicle Test Solution**

The Driver and Vehicle Agency

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-018216

Procurement identifier (OCID): ocds-h6vhtk-050ad7

Published 30 April 2025, 7:58pm

### **Scope**

### **Reference**

ID 5888575

### **Description**

The Department for Infrastructure, through its Executive Agency The Driver and Vehicle Agency wish to establish a Contract to appoint a Contractor to supply, deliver, install, commission, calibrate and maintain a total of 79 new vehicle testing lanes of equipment, the associated fully integrated test lane (ITL) software, all associated IT hardware and licences (from here on in referred to as 'Vehicle Test Solution') to service its network of 16 Test Centres. The contract's key focus will be to provide DVA with a complete vehicle test solution that will meet DVA's demands, on an all-inclusive supply, install and maintenance basis. The Contractor must also complete all necessary enabling works required to facilitate the installation and operation of the Vehicle Test Solution. These works may include, but are not limited to, structural, civil, mechanical, electrical and digital enabling works which must be completed in line with current UK building legislation, regulations,

codes and standards.

### **Total value (estimated)**

- £40,000,000 excluding VAT
- £48,000,000 including VAT

Above the relevant threshold

### **Contract dates (estimated)**

- 20 October 2025 to 19 October 2035
- Possible extension to 19 October 2039
- 14 years

Description of possible extension:

the contract will have the option to extend for 4 further periods of 12 months each

### **Options**

The right to additional purchases while the contract is valid.

The Services as detailed in the Contract and delivered by the Contractor may be subject to additional potential services and changes during the Contract Period in order to address and remain consistent with the wider operating environment including legislative changes impacting the vehicle testing regulations or market conditions, future changes to the Client's policy and Operational Requirements, and its corresponding requirements of the Contract.

The changes that this Section is concerned with may involve:

- i. changes to the volume of equipment/Services required from the Contractor ('Volume-

Based Equipment/Services');;

ii. changes which result in new Services or amendments to Services being required during the Contract Period, which cannot be foreseen at the time of this procurement ('Optional Services').

The Client may increase or decrease the volume of the equipment/services during the Contract Period in line with changes in the Specification. This may be due to, for example, changes in the Client's policy or policies, future changes in relation to development of the Test Centre Network, changes to the vehicle testing conditions or changes to the level of demand for vehicle testing. The changes may include, but are not limited to:

- amending the number of lanes to be delivered under this Contract which may increase depending on future decisions and approvals for the Network;
- allowing for the roll out of equipment (if required) as part of a refresh programme in line with any recommendations within future conditioning reports;
- permitting the purchase of equipment or associated items which are used in conjunction with the vehicle testing equipment that have sustained damage outside of normal wear and tear and therefore not covered in the all-inclusive maintenance.

Further detail is provided within section 12 of the Schedule 1 Specification document.

## **Main procurement category**

Goods

## **CPV classifications**

- 31000000 - Electrical machinery, apparatus, equipment and consumables; lighting
- 50100000 - Repair, maintenance and associated services of vehicles and related equipment

## **Contract locations**

- UKN - Northern Ireland

---

## **Participation**

### **Legal and financial capacity conditions of participation**

As per Tender documentation

### **Technical ability conditions of participation**

As per Tender documentation.

---

## **Submission**

### **Enquiry deadline**

20 June 2025, 5:00pm

### **Submission type**

Requests to participate

### **Tender submission deadline**

30 June 2025, 3:00pm

For ANI clients insert: For further details on invoicing procedures please see : <https://www.finance-ni.gov.uk/articles/account-ni-good-invoicing-practice>

[DN: Additional draft wording for consideration]

## Contract Value

The estimated value figure indicated in the Scope Section represents an overall estimated contract value. This value reflects the potential scale of the contract and takes into account potential optional extension periods. This figure does not however take into account the application of indexation or increases to charges due to the uptake of potential optional services as detailed in the tender documents. Neither CPD nor the Contracting Authority can provide any guarantee as to the level of business under this contract. The Contracting Authority does not bind itself to accept the lowest or any tender. Suppliers remain responsible for all costs and expenses incurred by them or by any third party acting under instructions from the Supplier in connection with taking part in this procurement process regardless of whether such costs arise as a consequence, directly or indirectly of any amendments made to the procurement documents by the Contracting Authority at any time. No legally binding contract shall arise (and a Supplier shall have no legitimate expectation that a contract will be entered into) until such time as entry into the Contract has been confirmed by the Contracting Authority.

## Description of risks to contract performance

The Contracting Authority has identified the following risks as risks that satisfy the criteria of Schedule 8 sub-paragraph (6)(a) of the Procurement Act 2023 i.e. that the risk/s could jeopardise the satisfactory performance of the contract but, because of its/their nature, cannot be addressed in the contract as awarded:

1. Tenderers are advised that enabling works will be undertaken following the award of contract in accordance with the Specification of Requirements. While such works will be carried out in compliance with all relevant statutory and contractual obligations, The DVA recognises the potential for unforeseen physical conditions or latent site risks to arise as a result of, or in connection with, those works ("Known Unknowns").

AND

2. Has concluded that there is a possibility that the contract may have to be modified as a result of a materialisation of the known risk/s at a later date in accordance with Schedule 8 paragraph 5 of the Procurement Act 2023.

## Exclusions

If at any time during the procurement, or post award, it comes to the attention of the

Contracting Authority (CA) or CPD, by whatever means, that a Supplier has become 'excluded' or 'excludable' as per Sec 57 of the PA 2023, the CA, after compliance with its obligations under the PA 23, reserves the right to exclude said Supplier from the procurement procedure or terminate any contract they have been awarded.

Insert appropriate reservations of rights and disclaimers of liability here consider - e.g.

The Contracting Authority expressly reserves the rights:

- (I). not to award any contract as a result of the procurement process commenced by publication of this notice;
- (II). to make whatever changes it may see fit to the content and structure of the tendering Competition;
- (III). to award (a) contract(s) in respect of any part(s) of the [services] covered by this notice; and
- (IV). to award contract(s) in stages.

and in no circumstances will the Authority be liable for any costs incurred by candidates.

## **Applicable trade agreements**

- Government Procurement Agreement (GPA)

## **Conflicts assessment prepared/revised**

Yes

---

## **Procedure**

### **Procedure type**

## Competitive flexible procedure

### **Competitive flexible procedure description**

1. Publish Notice and procurement documentation
2. Facilitate Tenderer Site Visit if required
3. Submission of Initial Tenders including Conditions of Participation (COP) submission
4. Consideration of Excluded / Excludable Tenderer Status/ Debarment Status \*
5. Assess and disregard any non-compliant tenders (with the option to award prior to dialogue)
6. Dialogue Sessions (if required)
7. Submission of final tenders (if required)
8. Assess final tenders and identification of preferred Tenderer (if required)
9. Product Verification with highest scoring Tenderer
10. Issue contract award notice and standstill letters then award Contract.

Tenderers must note that the Client reserves the right and the option to award this contract to a Tenderer based on the assessment of the initial tender submission without undertaking any dialogue session or final tender submission which may have been intended to be part of the process. If the Client avails of the option to proceed to award after the assessment of the initial tender assessment then it shall move directly to the Product Verification stage with the Highest scoring tenderer.
