- UKG - West Midlands (England)
- UKH - East of England
- UKI - London
- UKJ - South East (England)
- UKK - South West (England)

II.2.4) Description of the procurement

Customer Voice Survey(s)

THE ORGANISATION

The Money and Pensions Service; MaPS is an arm's-length body, sponsored by the Department for Work and Pensions, with a joint commitment to ensuring that people throughout the UK have guidance and access to the information they need to make effective financial decisions over their lifetime.

DESCRIPTION OF REQUIREMENT

MaPS' customer voice surveys are the organisation's flagship insight mechanism for ensuring high quality service delivery across all our direct to customer services. They:

- Deliver insight for continuous improvement
- Form the basis of our KPIs on customer satisfaction and outcomes

- Are a core part of our Quality Assurance Framework
- Deliver insight for policy and proposition development, corporate planning, and strategy development
- Support adherence to our Public Sector Equality Duty.

Our current Customer Voice surveys are delivered by two providers and measure customer satisfaction and outcomes across four different services that are either directly delivered by, or commissioned by MaPS:

Survey 1 - Money Guidance

A multi-channel service offering guidance on a range of money issues from money management, to travel insurance, to scams and fraud. 262k guidance sessions delivered in 2022/23.

Survey 1 - Pensions Guidance

A multi-channel service offering guidance on a wide range of pensions issues. 227k guidance sessions delivered in 2022/23.

Survey 1 - Pension Wise

A service specifically designed to guide customers on their options for taking money from defined contribution pensions. 243k guidance sessions and digital self-serve delivered in 2022/23.

Survey 2 - Debt Advice

FCA regulated debt advice delivered by a range of providers either in person or across a range of remote channels. Also includes administration of Debt Relief Orders. 509k customers helped in 2022/23.

With our existing Customer Voice surveys we have built a solid foundation, measuring quality of the interaction (customer satisfaction, key drivers and advocacy), as well as longer term outcomes in three key areas: Understanding, Resolution and Wellbeing.

- For Money Guidance and Pensions Guidance, a single survey within two months of the interaction captures both satisfaction and outcomes. For Pension Wise and Debt Advice,

these are measured in two separate surveys - Csat within two months of interaction with MaPS' services, and outcomes within six months of interaction, given that these more complex outcomes take longer to realise. This design enables us to track customers from entry into the service to longer term impact on their general and financial wellbeing.

- Surveying takes a modular approach, allowing us to measure some key metrics in a comparable way across all services, while other elements are bespoke to each service area (questions, timing of interviews and methodology)
- We have also moved beyond simply measuring satisfaction and outcomes and moved towards analysing the key drivers of our most important metrics. This gives us a deeper understanding of our quality of delivery and opportunities for improvement.
- The current surveys are delivered by CATI and CAWI, measuring satisfaction among c. 11.9k customers per year and outcomes among c. 9.4k customers per year in, four quarterly waves.
- Reporting is delivered at an overall level as well as at provider level (where MaPS services are commissioned rather than directly delivered).

Both our current Customer Voice survey contracts end in March 2025. MaPS intends to engage one or more survey providers to begin fieldwork in April 2025, enabling a seamless transition. This could involve a new single contract covering all service lines, or multiple contracts if required. MaPS also wants to take the opportunity to build on the foundations of our existing survey programmes and align delivery with our new corporate strategy and Customer Voice approach. We are particularly interested in:

- Enabling feedback closer to the interaction with MaPS services
- Enabling more regular and timely reporting
- Developing our survey mechanisms to enable us to close the feedback loop
- Building in flexibility to adjust our surveying to meet emerging business needs
- Exploring emerging methods and fieldwork techniques to maximise engagement and increase accessibility of the surveys
- Ensuring our surveys are suitable for understanding experience of omni-channel interactions and emerging digital tools.

We expect contracts to run over three years. The Budget will be informed by our market engagement sessions and further business planning.

TIMESCALES

MaPS expects to issue the invitation to quote in early November 2024, with a view to agreeing contracts in February 2025 in advance of go-live in April 2025. (These timelines may be subject to change).

II.2.14) Additional information
