<https://esourcing.scanmarket.com/Events/PublicEvents/3004/57aa08f02740e2c172f509ae0fa4807a/all>

I.6) Main activity

Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

CPPA - Corporate Power Purchase Agreement

Reference number

2022 0631

II.1.2) Main CPV code

- 09000000 - Petroleum products, fuel, electricity and other sources of energy

II.1.3) Type of contract

Supplies

II.1.4) Short description

Anglian Water Services (hereafter AWS) are seeking to enter into a PPA framework with a number of renewable energy generation counterparties, with the aim of running mini competitions for defined volumes of power on our journey to net zero carbon. AWS currently import >600GWh of electricity from the grid, and this framework will support our ambitions to be 45% renewable by 2025, and 100% by 2030.

Our intention is utilise this framework to bring significant volumes of power into our supply mix from October 2023.

Please note the intention is to open the RFI event as soon as possible. The date listed in this PIN for the contract notice (02/01/23) is indicative.

Please regularly check our public Scanmarket page for the event and/or FTS for a contract notice. The events will not be listed on our public page on Scanmarket until the RFI is opened and a contract notice has been published.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKH1 - East Anglia

II.2.4) Description of the procurement

AWS is seeking to enter into a PPA framework with a number of renewable energy generation counterparties. AWS will purchase the power generated by the winning bidders' renewable facilities (or an agreed percentage of the power generated reflecting AWS' power requirements (e.g. 150-200 GWh per annum)) for the duration of the supply period (e.g. >10 years) as well as the associated environmental attributes and benefits (i.e. REGO's).

The contract structure for the mini competitions has not been prescribed at this stage, however, it could be a physical sleeved PPA or a virtual PPA structure. The renewable energy generation counterparty will also procure balancing and shaping services and include as part of their PPA offering. The balancing and shaping service might be for all of a PPA term or part of and will be agreed ahead of each mini competition. The counterparties offering the balancing and shaping services shall hold a GTMA (Grid Trade Master Agreement) with AWS's utility supplier (currently SSE, or such other licensed supplier that AWS may appoint from time to time) in order to facilitate a seamless sleeve of baseload power into AWS import hedging structure.

II.3) Estimated date of publication of contract notice

2 January 2023

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.4) Languages in which tenders or requests to participate may be submitted

English
