Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Low Voltage Emergency Generator Maintenance

Reference number

GGC0565

II.1.2) Main CPV code

- 50000000 - Repair and maintenance services

II.1.3) Type of contract

Services

II.1.4) Short description

There is a requirement for an NHS Greater Glasgow & Clyde-wide contract to be in place for Low Voltage Emergency Generator Maintenance.

The contract is for the routine maintenance to emergency electrical generators located throughout NHS Greater Glasgow & Clyde (GG&C), including both minor (interim) and major (full) services. The service contractor must provide a 24/7 365 day breakdown repair. The service contractor will also be required to provide additional services in relation to temporary hire sets to cover failures or servicing and load banks for testing. The service contractor will be expected to provide expert advice to local Estates Managers on the maintenance and management of generator services to the hospitals, electronic reports on plant condition and actions required to ensure the reliability of the standby service.

II.1.6) Information about lots

This contract is divided into lots: No

- UKM82 - Glasgow City

Main site or place of performance

NHS Greater Glasgow and Clyde wide contract.

II.2.4) Description of the procurement

There is a requirement for an NHS Greater Glasgow & Clyde-wide contract to be in place for Low Voltage Emergency Generator Maintenance.

The contract is for the routine maintenance to emergency electrical generators located throughout NHS Greater Glasgow & Clyde (GG&C), including both minor (interim) and

major (full) services. The service contractor must provide a 24/7 365 day breakdown repair. The service contractor will also be required to provide additional services in relation to temporary hire sets to cover failures or servicing and load banks for testing. The service contractor will be expected to provide expert advice to local Estates Managers on the maintenance and management of generator services to the hospitals, electronic reports on plant condition and actions required to ensure the reliability of the standby service.

Sites, Locations & Specifications are detailed in the document entitled Appendix B Commercial Document.

The total spend for this contract is estimated to be approximately GBP 250,000 per annum. The contract will initially be for a period of 36 months with estimated value of GBP 750,000 (with the options of extending for 2 periods of 12 months). The aim is to meet NHS GGC requirements, whilst obtaining best possible contractual arrangements and to have a single supplier contract in place.

The outcome is to award the service to a single supplier NHS Glasgow and Clyde-wide for the duration as stated above.

There will be no guarantee as to the volume of business that the contractor may receive by virtue of being appointed.

II.2.5) Award criteria

Quality criterion - Name: Technical/Quality / Weighting: 40

Price - Weighting: 60

Suppliers are advised to allow adequate time for uploading documents and to dispatch the electronic response well in advance of the closing time to avoid any last minute problems.

Community benefits are included in this requirement. For more information see:

<https://www.gov.scot/policies/public-sector-procurement/community-benefits-in-procurement/>

A summary of the expected community benefits has been provided as follows:

It is a mandatory requirement that the potential contract participant agree to support the concept, provision and ongoing development of community benefits provision in relation to this contract.

Potential contract participant is required to agree to this mandatory requirement. They are also requested to provide a brief summary of the community benefits that have recently been delivered within Scotland, if at all, and also what impact and outcomes these have achieved.

Potential framework participants are required to summarise any proposed community benefits that will be developed and delivered as part of this contract if successful or, alternatively, potential framework participants confirm that they will engage with the NHS Scotland's Community Benefits Gateway (CBG). This gateway, developed through requests from suppliers seeking opportunities to support the delivery of community benefits within the contracting region, provides information on community benefit opportunities. The CBG is a free and easy to use online service that connects NHS Scotland suppliers with third sector community organisations within Scotland and will be used for tracking and reporting and is an approved compliant route to the realisation of

community benefits.
