Digital Capability for Health 2 is the next iteration of RM6221 Digital Capability for Health and will continue to provide application development and management service for Public Health and Social eCare Programmes.

We are running the framework agreement procurement under PCR 2015. The Supplier must work according to the set standards, as included in the Attachment 1a Framework Schedule 1 (Specification) and made available as part of ITT publication.

This is a single lot, which includes services in the following five areas:

1. Development and operations (DevOps) - for ongoing minor improvements of live services

2. Digital definition services - creating and progressing the project through discovery and alpha phases

3 Build and transition services - building the services using beta and live phases

4. End-to-end development services - designing and developing the services from discovery to live phases

5. Data management (and similar) services - for performing data collection, data processing and analysis and management of data and services
