Engagement process description

Cumberland Council is looking to engage with providers with capacity and the required skills and experience to find train and support individuals to set up as Microenterprises across Cumberland to deliver care related duties, support and prevention activities for Cumberland residents. To help people to continue living in their homes meeting their care and support needs and promoting personal independence and wellbeing.

The role will require a local presence in Cumberland to identify network and support suitable individuals with a passion about care who want to set up their care provision/prevention microenterprises with a focus on creating a network of microenterprises across the Cumberland footprint with a specific focus on rural areas where there is a demand for care and support which is not being met.

Although the service specification is in the development stage, if the Council looks to go ahead and commission a provider to develop a network of care/care prevention Microenterprises across Cumberland the provider will need to have access to a training programme to prepare individuals to set up Legally complaint microenterprises with required processes, policies, insurance in place as well as upskilling individuals with no previous care delivery experience as required.

So, we are inviting all interested providers to join us for a provider engagement session on the 4th of April 2025, 10am to 11am via Microsoft Teams.

As part of the provider engagement session the Council Commissioning Team will discuss the outline commissioning plan, talk through the tender process and commissioning timeline. There will also be an opportunity for providers to ask questions.
