BEIS intends to procure engineering-related scientific and technical services which includes the following:

1. Assessment of grant applications against technical and non-technical criteria

(i) These will cover both energy efficiency projects (such as heat recovery and process optimisation) and deep decarbonisation (such as carbon

capture and fuel switching).

(ii) Applications will be from the manufacturing sector and data centres, but the scope may be revised in future windows to encompass a wider

range of industrial activities. Companies of any size are eligible to apply.

(iii) For applications which require additional scrutiny, some technical resource may be needed to sit on interview panels.

(iv) Assessment windows are likely to take place three times a year.

2. Agreeing and verifying project baselines

3. Monitoring and evaluation of benefits realised by projects

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents
