maintaining current and future services in addition to fulfilling its Digital transformation obligations.

DVSA has the opportunity to take advantage and benefit from the government wide arrangement

that has become available via CCS framework. This arrangement enables DVSA and other public

sector organisations to access AWS services compliantly using the Cloud 12 framework.

The contractual arrangements have been agreed between Crown Commercial Services and

treats both central and local government sector organisations as a single user with multiple points

of consumption through a One Government Value Agreement (OGVA) with Amazon Web Services (AWS). This agreement leverages the Civil Service purchasing power and provides
