Tender

BMS Upgrade

Royal Berkshire NHS Foundation Trust

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-018795

Procurement identifier (OCID): ocids-h6vhtk-050c52

Published 2 May 2025, 2:18pm

Scope

Description

We have a requirement to upgrade and improve upon the existing Building Management System's across site. In the main part we require the York International BMS outstations to be upgraded to the Trend IQ range of products in line with our existing Trend BMS systems on-site, wired back to the Estates Fibre IT services and back to the Estates BMS front end, with appropriate graphical representation and alarm monitoring. The purpose of this upgrade is to enhance the operational efficiency, safety, and sustainability of the hospital's infrastructure, ensuring a more responsive and energy-efficient environment for both patients and staff. The BMS plays a critical role in controlling and monitoring key building systems, such as heating, ventilation, air conditioning (HVAC), lighting, security, and energy management.
